**babyballet**®

Where little boys and girls love to dance

## Babyballet Joondalup

Join our team of little stars to experience the magic of Babyballet

Babyballet is a fun, award-winning pre-school dance concept for girls and boys from 14 months to 5 years. With schools right across the UK, Australia and New Zealand, babyballet dance classes allow babies, toddlers and young children to enjoy the physical and social benefits of ballet, song and dance in a safe, caring, positive and informal environment.

With a real focus on learning through play, the unique babyballet syllabus offers four key stages of ballet and tap classes where every child can build their confidence and social skills, learning manners, discipline and respect while developing their basic ballet technique, coordination, musicality, balance, posture and rhythm.

Babyballet's fully qualified, friendly and engaging dance teachers are joined in class by the babyballet bears, Twinkle & Teddy, who help to encourage all the little stars to interact and share as they learn to dance without any pressure.

## MORE INFO ON BABYBALLET

### PARENT INVOLVEMENT:

Parents are required to join the class for the children born in 2017 and some of the 2016 born little ones. In a fast paced world this is a great opportunity for you to focus solely on your child for 45 mins, they love having you dancing with them. We ask that you focus on your child not chatting to other parents or on the phone as the little ones can get distracted easily. We have regular coffee catch ups after class so you will have time to chat.

For the 2015 born kids they enter the dance room on their own once they are comfortable with our teachers. The students get the most out of the class with no distractions and it certainly helps them be ready for Kindy as they have the confidence to dance without you. You are most welcome to wait in reception and watch at our viewing days.

### WHAT TO WEAR

Leotard and skirts for the girls or t-shirts and comfortable shorts for the boys is best. We also welcome dress ups and anything your child wants to "rock" that day. We understand that little ones love to dress up. We also have uniforms available for you. Little ones can go barefoot but we encourage little ballet shoes, available at all dance shops. For parents dancing with their little tiny stars make sure you wear something comfortable and easy to move in.

### WHEN YOU ARRIVE:

Please wait outside the studio in our comfortable waiting area. This is so everyone can come into the studio together and start right away. Make sure you have a water bottle handy also.

### WHAT TO EXPECT:

Our classes are fast moving and upbeat. We teach the basics of ballet and combine it with Jazz, Hip Hop, Singing, basic acrobats and Tap (Tap just for the older levels). Expect props, rhymes and happy music.

Every parent wants their child to bound into the studio and start joining in and dancing straight away. Sometime this is exactly what happens but at The Star Factory we know children are all individuals and will react and develop differently.

The unknown can sometimes worry children. Please don't be alarmed if your child spends some time or even the entire first session watching from the sidelines. Teachers make sure there are a lot of fun ways to learn so children feel excited and want to join in. You'll be surprised how much they remember and pick up from simply watching. The best thing is to join in with them where they feel comfortable and let them see how much you and the others are enjoying it. You will find that the shyest of kids do join in, it just may take a couple of tries. Our friendly teachers will work with you

# Babyballet

@ The Star Factory

The world's leading preschool dance program, babyballet®, has landed at THE STAR FACTORY!

Why is babyballet® is the world's most loved program? Because:

- The atmosphere of each class is wonderfully supportive and creative where children and parents alike are transported into a world of magic, fairies and make believe
- Each class is delivered with an ideal mix of dance and fun and is the perfect introduction to dance that allows each child to explore their love of music, movement and tutus
- The genuine kindness and consideration shown by babyballet® teachers to each of the boys and girls, whatever their level and ability is so touching; adapting the dance scheme to fit each individual child's' needs
- Not only do these classes teach the girls and boys coordination, songs and fun dance moves but they teach them patience and the importance of sharing while capturing the imagination
- babyballet® involves the whole family as mummy and daddy have lots of fun joining in too and it is a lovely opportunity to meet other mums and dads and make new friends

With a researched and proven focus on learning through play, the unique babyballet® syllabus offers four key stages of ballet and tap classes where every child can build their confidence and social skills that will give them the tools they need to transition smoothly into new environments. The classes are so much more than dancing and will establish positive habits such as learning manners, discipline and respect while developing the foundations of technique, coordination, musicality, balance, posture and rhythm.

# Babyballet

@ The Star Factory

There are four stages of Babyballet:

**Tinies (Born 2017)** Toddlers adore learning the basics of ballet through movement, play and song. Toddlers and young children are encouraged to further develop and explore their ability to move, dance and sing in our Tinies classes. Still with their parent or carer by their side, these fun classes involve lots of smiles and laughter - the perfect toddler dance class! The little ones love the dances and catchy songs – and so do the adults!

**Movers (Born 2016)** Our dedicated team delight in encouraging preschool children to use their imagination while learning ballet fundamentals through enhanced movement and song. Focusing on developing gross motor skills, basic ballet, rhythm and confidence, this class helps children feel comfortable with their own natural ability and their surroundings. Increased dancing and imagination are learnt in a fun environment with singing along to music, helping to build basic principles and social skills that will serve them well as they approach school age.

**Groovers (Born 2015)** As your child develops and learns about their world around them, these classes will focus on improving coordination, self-control and ballet technique in a non-competitive environment. This class takes children of school age to a higher level of musical ability, balance, posture and confidence – and is designed for children who love to dance and learn ballet, but don't want to feel intimidated by joining a competitive class. Classes are welcoming, fun and a fantastic way to learn new dance routines and technique without any pressure.

**Tappers or Tumblers (included in Groovers and Movers)** Depending on the day you choose the little ones either learn tap which they love making noise and exploring rhythm or tumbling which strengthens them, increases coordination and helps them to learn basic acrobatic tricks. Both options add excitement to the classes and the little stars will love showing off their new tricks or tap steps.
